Dear Louis,

Harold Weisberg phoned me this morning and asked me to send you and Moo certain material pertaining to Oswald's literature distribution. Enclosed are 3 pages listing relevant material in my possession.

I listed but did not send certain pages from Harold's book. I did not send copies of any of the handbills, but I believe all the relevant information is indicated. One page of notes concerning Marty Abelow is enclosed; I am sure that I sent most of the other listed items some time ago. I am fairly sure I sent you the material on the doctoring of the published version of CE 1412. I am enclosing 37 of the other 77 pages I have; these are mostly the pages I sent Harold recently. I gather he discussed some of them with you when he was there.

As you can see, there are about 80 pages relating in some way to this matter which are not enclosed. To save Xeroxing costs, I am asking you to send me a copy of my lists with any further documents you want so indicated. I will then send them immediately.

Sincerely yours,

Paul L. Hoch
